

# 7 Concord Square Fire Alarm Proposal

---

Presented by: Martin  
Courage, Owner of unit 1

# Scope of Project

---

- We are updating our fire alarm system because it's old and malfunctions. The main upgrade will be the fire panel in the foyer. We are also updating each smoke detector and ensuring the strobe lights in hallway and alarm in each units are working properly.
- Tom McGann with McGann Contractors will be doing the work. He was referred to us by Gibson Sotheby's
- Total cost of project is \$5488
- We hope to begin this project by mid June if approved
- **We are seeking approval to add an alarm and strobe on the front of our building as required for inspection when updating fire alarm system**

## Example from Concord Square Neighbor

- This is an example of a neighbor's strobe light and alarm that's north of us, close to Columbus Ave.

# Picture of 7 Concord Square

- This is where we plan to place the new alarm and strobe

## Additional Pictures of 7 Concord

- This is a few pictures of the front of our building if you want to move location of alarm and strobe

## Additional Pictures of stairs

Some neighbors also install on side stairs, if that is preferred by the commission.

Thank You.
