

FLAHERTY PLAYGROUND CONSTRUCTION UPDATE JANUARY, 2025

Thank you for your interest in our renovation to Flaherty Playground. We understand this park is an important outdoor space for recreation and community gathering, and we hope to have it back open as soon as possible. We appreciate your patience during our renovation.

CONSTRUCTION IN JANUARY:

- Site retaining walls have been constructed.
- Playground equipment delivery will occur in mid-February
- Drainage structures have been installed.
- We've selected the rubber safety surface color.

Work to anticipate in February:

- It's going to be messy for a while. The contractor will install concrete bases for play equipment and light poles.
- Sub-grade work will continue, to install drainage pipes and electrical conduit.

One of the unit block retaining walls, by the entrance near the Health Center. We are keeping these steps in place, so we need to determine how the new wall and existing steps work together.

The new safety surface will be speckled green - the darker version on the left.

Tearing up the final area of pavement, so the contractor can start to install the entrance path from Brookside Ave. This new entrance path will be sloped, so it will now be an ADA-accessible entry.
