Chinatown Today 今日的唐人街

- 2.2 acres of open space per 1,000 people vs. 7.9 acres for the city 每千人擁有 2.2 英畝開放空間，而全市平均千人擁有 7.9 英畝開放空間
- 3% green space vs. 23% citywide 唐人街仅有3%的綠地率，而全市平均 23% 的綠地率
- Hottest neighborhood in Boston 波士頓夏天最炎熱的街區
- Only 10% under tree canopy 只有10%的面积有树木荫蔽

PROJECT GOALS 項目目標

- Rectify inequitable lack of green and open spaces in Chinatown
改善唐人街綠地和開放空間分配不均的問題
- Mitigate urban heat island effect with increased porous and green surface coverage
通過提高路面的滲透率與綠化覆蓋率，減輕城市熱島效應
- Address impacts of highway development and urban renewal on health and air quality
解決高速公路開發和城市更新對居民健康及街區空氣品質的影響
- Support the vibrant business community in Chinatown
支持唐人街充滿活力的商業社群
- Reduce isolation and increase community cohesion by activating shared space
通過活化共享空間，減弱居民的孤獨感，增強社區凝聚力
- Provide a platform for arts and culture programming
提供藝術與文化活動的平臺
- Foster a sense of belonging and care for Chinatown
培養對唐人街的歸屬感及共創街區的意識

Key principles informing the work include:
